Dec 15, 2021

ABRIL JORDAN CASINILLO

has successfully completed the online, non-credit Specialization

(ISC)² Systems Security Certified Practitioner (SSCP)

The Systems Security Certified Practitioner (SSCP®) Professional Certificate helps practitioners like you prove their ability to defend against cyber attacks. Completing the SSCP Professional Certificate and working towards earning the SSCP Certification will show your current or prospective employer that you have the knowledge and skills to ensure strong security practices are implemented and maintained across IT operations.

(ISC)² Education & Training

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
